

DINGLEY
— VILLAGE —

Thank You Dingley Village

Many thanks to the Dingley Village residents and other interested people who have taken part in the public exhibition process around our proposal to create a new neighbourhood on the former golf course site on Centre Dandenong Road.

Hundreds of people have viewed our proposal and many have made submissions.

The proposal aims to deliver an inclusive, attractive, high-quality residential neighbourhood that will enhance the area for everyone who calls Dingley Village home. Features of the new neighbourhood include:

- 14 hectares of open space (about the same in area to eight MCG playing fields)
- 6km of walking and cycling paths, landscaped with grasses, trees and shrubs. A large new centrally located park for the whole community to enjoy. This park will be big enough for recreational ball sports and include basketball and netball rings, picnic shelters, tables and barbecues
- An all abilities themed children's playground
- Contoured landscaping creating an amphitheatre where community concerts and other events can be held

The formal exhibition phase ends on Friday 20 August. In the next phase the Department of Environment Land, Water and Planning (DELWP) will assess all submissions and conduct a public hearing.
